QUALITY POLICY					

Quality Policy

It is the Policy of Straight Line Engineering Limited to provide products that meet or exceed customer expectations.

To achieve this we are committed to:

- Listening to the needs and requirements of our customers
- Continually improving the quality management system
- Compliance with all relevant statutory requirements
- Sustaining profitable growth
- Maintaining an effective quality management system and registration to the international standard ISO 9001:2015
- Using objectives, targets and measures which are reviewed in order to improve the performance of the business against this policy
